HOURGLASS TABLE

GOLD RUSH

COMPANY BeeLine Home by Bunny Williams
RETAIL \$4,800 INFO beelinehome.com

+ This opulent table, conceived by renowned designer Bunny Williams, features an hourglass silhouette recalling the glamour of 1940s Paris. Inspired by a piece found in Europe, the octagonal base of reeded mahogany flaunts an eye-catching gold patina while supporting a Tulung Agung (Indonesian marble) stone top.

"This dashing table actually lives in one of my projects. We purchased it at Hollyhock in Los Angeles where my client saw it and loooooooved it madly. We placed it smack in the center of a small, very tall, three-sided bar/library where the cabinet paint was a glossy deep eggplant with loads of cream parchment books and gilt elements. You feel as if you are entering Tut's tomb full of treasures in that space! It is handsome and architectural, two of my favorite qualities in a timeless piece."
